“ Dear Grandma, I just found out yesterday of your passing. This was after my sister Reva did some digging on a website to try and find out more about our Dad, Robert's side of the family. I had been hoping to be able to see you and talk to you again but now it's hitting me that I never will. My daughter Zoe was born on your birthday in 2023, and I didn't even know it was your birthday. If this message reaches family please know I'd love to reconnect with any of y'all. And Grandma, my garden this year will be blessed in your name and memory. With great Love and grief I write this message.

“ I just remember growing up when we were young our families were really close and had a tun of fun, probably too much. When you all lived in Harper and I spent the summer there. I will always remember Aunt Geraldine as a happy and a person who would do anything for you. I love you guys/gal and wish that I could be there, but some things came up and I couldn't get away. I will be with you in spirit.
